

10th March 2020

Dear Parents/Carers,

I am writing to confirm that a family member of one of our pupils has tested positive for Coronavirus (Covid-19). I know that this will be worrying news, but want to reassure you that we are keeping up to date with advice from Public Health England to take all necessary action to ensure the welfare of our pupils, staff and their families.

The pupil in question has not tested positive for Coronavirus (Covid-19) but acting on advice from Public Health England the family will be self-isolating as a precaution.

We are keeping updated with advice from Public Health England and they advise that there is no need for us to take any action, so the school will continue to remain open as usual.

We will, of course, continue to be vigilant with cleanliness and in ensuring we are aware of the latest expert advice. This can be found on the NHS [website](#), and government updates are available on our website.

I will be in touch again if the situation changes, and if there is any further information that I need to share.

Kind regards

Katharine Dines
Headteacher
